

New Feature Requests — Church Management App

Prepared for church management review • 4 August 2026

This document summarizes new feature requests gathered from church management for the parish management app, intended for engineering scoping. Items marked **TBD** need confirmation from church management before detailed implementation planning can begin.

1 Mobile App for All User Levels

All existing user roles need mobile access to the app, in addition to the current web access:

- Church Admin, Unit Admin, Kudumbakutayima (household group) Admin, Member, and Donor.
- Each role will continue to see only its own sub-level data — a church admin sees their church, a kudumbakutayima admin sees only their group's houses/members, a member sees only their own record — the same scoping already in place on the web app today.

2 Approval Flow for Sthothrakazhcha & Spiritual Activities

A new two-step validation flow for weekly Sthothrakazhcha offerings and spiritual activity records:

- **Step 1 — Mark:** the Kudumbakutayima Admin marks/logs the entry for their group.
- **Step 2 — Approve:** church management reviews and approves the entry.
- An entry only becomes valid (counted) once approved — marking alone is not sufficient.

Note: today the Kudumbakutayima Admin role is read-only; this request introduces a new, scoped ability for that role to mark these two entry types as pending approval.

3 New Offering / Contribution Types

In addition to the existing Campaign feature, new contribution categories are requested:

Type	Notes
Pathavarm	Tithe — a standalone contribution type, not part of the rate list below
Kurubana, Opice, Vencheripp	Not separate types on their own — each is a category inside the broader Thirukkarmangal (Sacred Rites) master rate list. See Section 4 for the full list.

To confirm **TBD** for Pathavarm: whether it is compulsory or optional, whether the amount is per-house or per-member, and whether it is one-time or recurring.

4 Thirukkarmangal — Master Rate List

The full fee schedule for sacred rites (തിരൂക്കർമ്മ ധർമ്മവിവരം), across five categories. Kurubana = category I, Vencheripp = category III, Opice = category IV (ഒപ്പീസ് = Office/prayers for the deceased).

5 Rate & Split Configuration

Every rite above should be built as: **rite** → **total amount** → **recipient split**, so the amount collected is automatically divided among the people/groups who performed it — not hard-coded per rite. The only split confirmed so far is for ആഘോഷമായ കുർബ്ബാന (Solemn Mass, ₹300):

Recipient	Share	Amount (₹)
കാർമ്മികൻ (Celebrant)	55%	165.00
ദൈവാലയ ശുശ്രൂഷി (Church Minister)	15%	45.00
ഗായകസംഘം (Choir)	10%	30.00
അൾത്താരസംഘം (Altar Servers)	10%	30.00
പള്ളി (Church)	10%	30.00

Total	100%	300.00
-------	------	--------

To confirm **TBD**: the recipient split for each of the remaining 22 rites above (e.g. റാസ and ശ്രീശോഭിയൻ കുർബ്ബാന likely involve additional concelebrants; blessings and memorial rites may have a simpler split) — needed from church management before engineering builds the master.

6 Hall Booking — Draw of Lots

For the hall booking deposit scheme, add a periodic **draw of lots** among contributors:

- When a contributor's name is drawn, they no longer need to pay the remaining monthly installments starting from the following month.
- Their deposit is treated as complete from the point of the draw onward.

To confirm **TBD**: how often draws happen, whether only up-to-date payers are eligible, and whether a contributor can be drawn more than once.

Next Steps: Pathavarm's rules, and the recipient split for each of the 22 unconfirmed Thirukkarmangal rites (items marked **TBD** above), need to be confirmed with church management before engineering scopes these into a detailed implementation plan.
